The Addison Northwest School District recognizes that information technology (IT) is integral to learning and educating today's children for success in the global community and fully supports the access of these electronic resources by students and staff. The purpose of this policy is to:

1. Create an environment that fosters the use of information technology in a manner that supports and enriches the curriculum, provides opportunities for collaboration, and enhances staff professional development.
2. Ensure the district takes appropriate measures to maintain the safety of everyone that accesses the district's information technology devices, network and web resources.
3. Comply with the requirements of applicable federal and state laws that regulate the provision of access to the internet and other electronic resources by school districts.

Policy

It is the policy of the Addison Northwest School District to provide students and staff access to a multitude of information technology (IT) resources including the Internet. These resources provide opportunities to enhance learning and improve communication within our community and with the global community beyond. However, with the privilege of access comes the responsibility of students, teachers, staff and the public to exercise responsible use of these resources. The use by students, staff or others of district IT resources is a privilege, not a right.

The same rules and expectations govern student use of IT resources as apply to other student conduct and communications, including but not limited to the district's harassment and bullying policies.

The District's computer and network resources are the property of the District. Users shall have no expectation of privacy in anything they create, store, send, receive or display on or over the District's computers or network resources, including personal files and electronic communications.

The Superintendent is responsible for establishing procedures governing use of IT resources consistent with the provisions of this policy. These procedures must include:

1. An annual process for educating students about responsible digital citizenship. As defined in this policy, a responsible digital citizen is one who:
 - **Respects One's Self.** Users will maintain appropriate standards of language and behavior when sharing information and images on social networking websites and elsewhere online. Users refrain from distributing personally identifiable information about themselves and others.
 - **Respects Others.** Users refrain from using technologies to bully, tease or harass other people. Users will report incidents of cyber bullying and harassment in accordance with the District's policies on bullying and harassment. Users will also refrain from using
